## **DETAILED ACTION**

### ***Response to Amendment***

In response to the Non-Final Rejection mailed 10/16/2006, applicant has filed an Amendment, filed 1/16/2007, including the indicated allowable subject matter in the dependent claims into their parent independent claims and canceling said dependent claims, as well as adding new claims 32-37 with allowable subject matter.

Thus, dependent claim 4 was canceled and its limitations incorporated into independent claim 1; dependent claim 19 and its parent dependent claim 18 were canceled and their limitations incorporated into independent claim 5; independent claim 21 now is an apparatus claim parallel to amended independent claim 5; dependent claim 24 was canceled and its limitation incorporated into independent claim 23; dependent claim 29 was canceled and its limitation was incorporated into independent claim 25. New independent claim 32 combines the limitations of the previous independent claim 25 and the allowable subject matter from claim 31.

So, with an Examiner's Amendment to correct the residual dependence of claim 30 on canceled claim 29 (now part of claim 25), next, the application is now in condition for allowance, for reasons indicated in paragraph 10 of the previous Office Action, mailed 10/16/2006.

***Examiner's Amendment***

An examiner's amendment to the record appears below. Authorization for this examiner's amendment was given in a telephone interview with Thomas S. Ferrill on 6/1/2007.

**In the Claims:**

In claim 30, change the dependence from canceled "claim 29" to **—claim 25—**.
